

Emergency Warden & Chief Warden Awareness

Course Overview

This course is designed for leaders of Emergency Control Organisations (ECO's) in factories, manufacturing facilities, warehouses, offices or other workplaces that also need to learn the duties of the Emergency Wardens they will lead. This includes Chief Wardens, Deputy Chief Wardens and Communication Officers.

Emergency Control Organisations (ECO's) are defined in the Australian Standards. In this course participants are assisted in understanding their position within the emergency response structure, and the importance of a team response to effectively control emergencies.

Workplace emergencies such as fires, bomb threats, chemical spills and other emergencies are discussed, along with the appropriate considerations and responses. Participants are assisted in understanding their position within the emergency response structure, and the importance of communication, decision making and reporting.

Workplace emergencies are discussed, along with the appropriate considerations and responses. Site communications and procedures for evacuation of personnel to nominated muster points are discussed and explained.

This course is designed for anyone that is going to become the Communications Officer, Deputy Lead Warden or Lead Warden in an emergency situation and has not been trained in Emergency Warden.

Duration	6 Hours
Location	This course is normally training at your Workplace using your sites Emergency Plans, Policies and Procedures. If necessary we can train at our Training Centre tailoring this course to your sites specific requirements.
